AAC IOS Apps

The following is a list of AAC (Augmentative and Alternative Communication) apps identified in the MOAT AAC app survey February 2015. The AAC apps listed are those that met our criteria of having had updates in the last two years and which had a link to the developers' website. The list is not meant to be a list of AAC apps recommended or endorsed by MoAT, but merely allowed us to scale down the current list of 500+ AAC apps to 38.
